

ENVIRONMENTAL POLICY

The directors, management and supervisory staff of Steatite Batteries have responsibilities for the implementation of this policy and must ensure that the environmental issues are given adequate consideration in the planning and day-to-day activities of all work.

We acknowledge the potential impact of our products to the environment and are committed to minimise this through the maintenance and continual improvement of our Environmental Management System.

We are committed to:

- Monitor and minimise our negative environmental impacts wherever possible.
- Ensure that all Legal and Regulatory, and other applicable compliance obligations are met.
- Continuously improve our environmental performance and management system.
- Establish environmental objectives based on our significant environmental aspects, compliance obligations and considering our risks and opportunities.
- Promote responsibility for the environment within the organisation
- Communicate and implement this policy at all levels within the workforce.
- Identify and provide appropriate training, advice, and information for staff
- Encourage the development of new ideas and initiatives.

This Environmental policy will be reviewed at minimum annually and revised as necessary to reflect changes from business activities or legislation.

We will communicate this policy, our environmental performance and other relevant environmental information to our staff. We will consider staff suggestions to improve environmental performance and implement these where practicable.

INTERNATIONAL ENVIRONMENTAL STANDARD ISO 14001: This policy forms part of our commitment to continuous environmental improvement and maintaining ISO 14001 accreditation. We will continue to fulfil the requirements of the standard and provide the necessary resources to do so.

Approved by  Date 12/May/23
Matthew Richards (Managing Director)
